

p63-Isoform Δ Np63 (p40) ist p63 überlegen

- gleiche Sensitivität bei deutlich besserer Spezifität
- „p40 staining was equivalent to p63 in sensitivity for SCC, but p40 was markedly superior to p63 with respect to specificity“.
- „The findings were stated to strongly support the routine use of p40 in place of p63 for the diagnosis of pulmonary SCC.“ Hammar & Dacic 2014
